Guest Lecture on Research Methodology and Data Analysis had been conducted by the EDC Cell by Prof. V. Bhavannarayana, Resource person JNTUH Hyderabad on 12th August 2015. In this session, he delivered the lecture on the use of statistics in court cases, and the importance of explaining statistics in a manner that laypeople can understand. I like this one as I teach my students how to create APA results sections for all of their statistical analyses. This lecture helps to explain WHY we need to learn to report statistics, not just perform statistics..

The students & Faculty had hands-on session with the extension knowledge provided by the guest. With this session the faculty had gained knowledge on statistics and how Operation research is going to help in different aspects.

**Sub : Request to come and organize the Orientation Program of E-Cell
in our college - Reg**

Respected Sir,

St. Martin's Engineering College is promoted and managed under St. Martin's children Education Society (SMCES) that was founded in 1982. It started with a school at Balanagar having modest student strength of 42, and a unique vision to build a brilliant generation next. As of today, the society has wide spread into four branches from where more than 7,000 students receive quality education.

Establishment of E-Cell has been done in the academic year 2015-16 to motivate the students towards the Entrepreneurship. E-Cell wants to organize the orientation program for the Fresh batch on 06th August 2015, so we would appreciate if you could conduct a workshop of above stated subject for our students.
