PHYSICAL FACILITIES

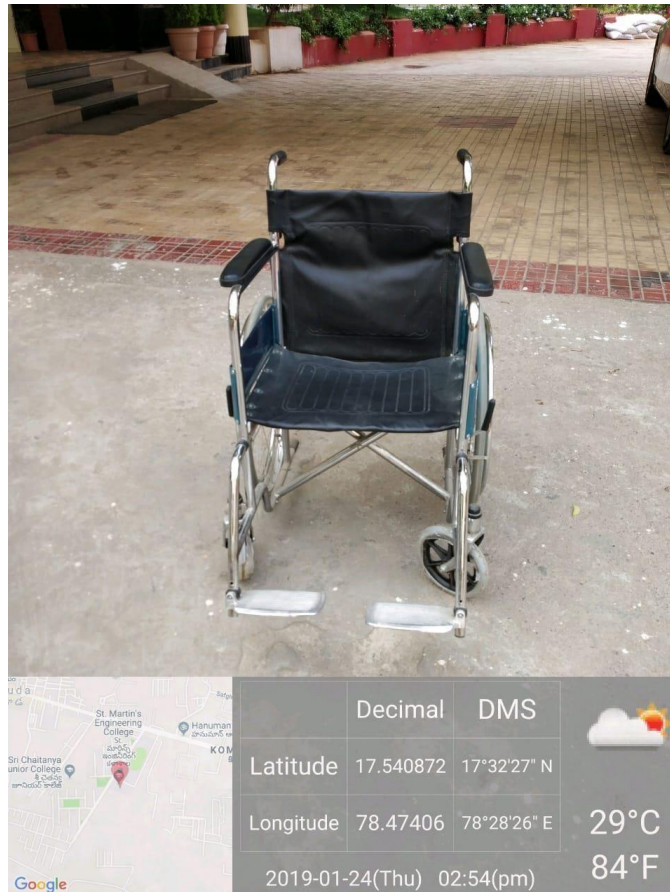

RESOURCES AVAILABLE IN THE INSTITUTION

1. PHYSICAL FACILITIES

- 1. Wheel Chair**
- 2. Electric Buggy Car**
- 3. Battery operated Electric hybrid car**

1.Wheel Chair:

To help the students who are differently able the buildings are constructed in the campus in such a way that students can climb the stairs through lift facility. In addition ramps are also constructed beside the stair case. Wheel chair facility is also available in the college.

2. Electric Buggy

Final Year students of Mechanical Engineering (2013-2017) batch have developed an Electric Buggy Car specially designed to help the persons with physical disability (Divyangjan). The Electric Buggy helps the Divyangjan people to travel from the main gate to the respective blocks of the college without any difficulties. It is quite less expensive as it does not consume diesel or petrol. It runs on the battery power.

3. Battery operated Electric hybrid car :

A battery operated Electric hybrid car was designed and developed by Department of Mechanical students of St. Martin's engineering college. It is being used for the Transportation of differently-abled students in the campus.

The advantages of hybrid cars are the ability to save ability to save fuel which ultimately reduces the dependence on foreign fuel. They are environmental friendly because they emit lesser toxic gas and that helps in overcoming the serious environmental problems like climate change and global warming.
