Function and responsibilities:

Institutional Social Responsibility & Community club is to equip and familiarize, involve the faculty, student with the socio-economic dimensions of the rural communities, changing perceptions & aspirations, priorities and innovative effort of rural communities for sustainable development and inspiring, igniting and educating and enabling them to develop by utilizing multiple opportunities.

To ensure the academic quality of these programs, create partnerships between institutions, communities and governments, and exchange knowledge and raise awareness about the mole of higher learning.

This cell helps staff to address and find solutions to the social problems in the society. This responsibility also means taking the role as a leader in creating the culture of social responsibility in the society.

Social responsibility is one of the best practices in our college and it is also one of our major priorities, as we believe that our role as an engineering institution believes in imparting of social responsibility as part of our education system rather than the knowledge and skills to students. As education society, we act as active agents of social change, We aim to address and find solutions to the social problems.

The cell is to take of social concerns and to social problem in the community
